I do not smoke, I do not use drugs, I am very responsible, I do not have children, I am single, very clean and tidy, with a lot of desire to work and enjoy what I do in a good working environment.

I know how to speak different languages, different cultural themes, a lot of experience in everything that means social environment, I love art and sport, I did personalised work also as a personal trainer, I am very healthy, I take care a lot of aesthetics and know how to be.

I have been in many jobs in charge and I know how to manage groups of people and also how to make everything run smoothly.

I recently came to live in Buenos Aires, as I have been working in many countries in Europe, Nordic countries and Central America, I decided to return after travelling, living and working in places with different cultures, being a path with a lot of learning, and a dream lived, to travel the world. Today I am already settled in my beautiful country, eager to work, share and add to my new work experience, individually and in groups, making everything work properly, always very positive and with lots of energy, I can work full time!
