I started the field in one of the largest beauty companies in Peru as a lady barber and junior stylist and along the way I learned a lot, about how beyond providing a good service it is also very important to provide a good experience, taking into account even the smallest details in each job done, I learned to see that beyond creating being a stylist and client you must generate a special bond of transparency, trust and respect for the other person, also that they can be well advised as to how important it is to take good care both in the salon and at home, I also promote the sale of the products provided, implementing my learning throughout this on the field of hair today I will be considered a Lady barber Master / unisex stylist.
