

## Makeup and Hair Designer

# LILIANA MONROY

### Summary

My name is Liliana Monroy, I'm a professional hairdresser and makeup artist. I have 10 years experience on the beauty industry. Since I was a child, I have had a closeness to and appreciation for art. My first approach to makeup and hair was very young, when I was a ballet dancer. Later, I began to be interested in theater and it was thanks to this that my interest in creating characters arose, in analyzing their personalities, in imagining how they would style their hair, how they would dress in their daily lives, according to their emotions, according to each moment of their lives. It was when I was an adult, after studying photography, that I decided to study professional hairdressing, in addition to learning makeup techniques to be able to bring these characters to life.
