## OTHER INFORMATION

My name is Thiago Pacheco Pizarro, I'm 32 years old, and I was born in Curitiba, Brazil. I'm the son of an Argentine father and a Brazilian mother.

In 1999, we moved to Florianópolis, where I completed my elementary studies. Then, in 2007, we settled in Buenos Aires, where I finished high school.

In 2020, I started studying journalism at the ETER Institute, and I have been working for five years in the tourism area. I have extensive knowledge in history and politics.

Daily, I talk with tourists from around the world, especially Americans and Latins. For this reason in my work, I usually speak three different languages in the same day.

I'm interested in working in this sector because I enjoy studying and explaining history, and I would like to show the beauties of Buenos Aires. I like having contact with people. Furthermore, I am motivated to learn new languages. I want to develop my English even more.
